Day 1 Arrive Sarajevo

Set among the hills, along the Miljacka River, Sarajevo has quite a picturesque outline that already gives a hint of the splendour of mixed traditions. Some say that name, coming from the Persian word for palace or mansion, already has set its destiny of natural and cultural abundance. It would be impossible to point out one crucial thing about this incredible city. There is a lot of everything here: sounds, smiles, flavors and rituals. Try to embrace the genuine hospitality of locals and make sure you enjoy the traditional cuisine of Bosnian capital.
Overnight: Sarajevo.

Day 2 Sarajevo Food Experience Walking tour® - Springs of Bosnia River & Tunnel of Hope

4 h

Dive into Sarajevo Food Experience Walking tour® that will please both your mind and stomach. With a concept of combining history and cuisine, the past will look more alive and the gastronomy will get a deeper meaning! Storytelling starts with eclectic Vijećnica (City Hall), originally dated from the end of the 19th century and reopened in 2014, and anecdotes about "Inat-house" (spite house) or Šehar-Čehaja Bridge. The very heart of the downtown, Baščaršija with authentic souqs and crafts shops from the Ottoman era, and the fascinating Gazi Husrev-bey mosque follows. Once distinctly multicultural Sarajevo today can be seen in traces: examples are the Museum of the Jews, the Orthodox Church from the 16th century and Catholic cathedral of Sacred heart. Tour starts on a river and ends above it, on the most known bridge - Latin bridge, where the successor to the Austro-Hungarian throne Franz Ferdinand was shot, consequently causing the First World War.

Among the highlights, quite number of places, significant for locals, and different food shops will bring you a chance to feel a true pulse of the city. The best examples are small, family-run gastro points with expertise in a unique traditional specialty. You will have a chance to taste: authentic meat pie known as 'burek', the most famous Bosnian delicacy 'čevapi' in homemade bread and the most gorgeous looking and tasting sweet called 'tufahija'. You will also enjoy

"domestic coffee" and a slightly forgotten refreshing drink called 'boza'. To this already colorful painting of Sarajevo, final touch is a visit to the Bezistan, a lively bazaar (a market from the 16th century) with a great variety of fragrances, colours, fabrics...

The tour continues to the Sarajevo Airport zone where the "Tunnel of Hope" is located – it is a war tunnel built during the siege of Sarajevo in 1993. Just like the old, medieval tunnels, its main purpose also was to connect the city under siege with the free territory, but eventually, it became the symbol of hope. For the end of the day, take a final spin to Sarajevo's green oasis, The Springs of Bosnia River. This remarkable area around the spring of the river, to which this country owes a part of its name, is turned into a beautiful park. Several small islands and verdant plains with small waterfalls are connected with old-time wooden bridges. If you feel like getting the full experience of this little paradise, get on a horse carriage ride through the beautiful oak valley.

In your free time we highly recommend you not to miss Sarajevo brewery museum where along the great beer you can enjoy number of urban legends from its over 150-year long history. **Overnight: Sarajevo.**

Day 3

Lukomir Village: Hike the highest and most isolated village in Bosnia

 15,1 km  5:30 h  790 m

The picturesque ride through Bjelašnica Olympic Mountain will take you to Umoljani village known by the UNESCO World Heritage site - Dolovo Stećci Medieval Tombstone Graveyards. Umoljani village is right where our hiking adventure begins, with a goal to reach Lukomir village, the highest and most isolated village in Bosnia and Herzegovina, located at 1.500 meters of altitude. On your way to Lukomir you will reach Gradina, a small settlement primarily used by the locals as a base (camp) for summer pastures. As hike continues upwards, spectacular panoramic view of Studeni potok (Cold Stream) and its valley spreads around. At the end of the three-hour-hike the reward is expecting you: conquering the peak Obalj (1.896 metres high). Once at the top, you will experience an extraordinary view of the peaks of the mountains Bjelašnica, Treskavica and Visočica, as well as the Rakitnica River Canyon and many faraway villages. After a short refreshment, your hike continues down to Lukomir, an exceptional village with a 600-year-long tradition, an unforgettable and one of a kind

experience. Don't miss the great opportunity to learn about their own tradition, cooking methods, and clothing that have remained intact in this village from the medieval ages. A true treat will be meeting the locals and learning first-hand about the difficulty, but also simplicity of life in the mountains. Savour a traditionally prepared lunch and coffee (included), and take some fantastic photos of the medieval stone-made mountain houses.

After the lunch break, you will hike back through one of the least discovered canyons in Europe, the canyon of the Rakitnica River. As you hike through the canyon, 800 metres deep and, in some places, only 1 metre wide, you will be amazed by the rare sight of virgin nature in its full glory. The hiking route leads all the way to the starting point so the circle for this day is closed.

With body and mind full of impressions, take a seat and relax on your way back to Sarajevo. **Overnight: Sarajevo.**

Day 4

NP Sutjeska with Perućica Rainforest & Trnovačko Lake

 12,5 km  5 h  1276 m

One more day of flourishing gem of nature of Bosnia is ahead of you. National Park Sutjeska, located about 100 km away from Sarajevo, represents one of the oldest parks in Bosnia with an area of 175 km² comprised of magnificent, untouched and pristine wild nature. After a short walk, enter the park and rainforest Perućica, one of the two last standing rainforests in Europe, dating 11.000 years back. Fun fact: some parts of the forest are completely unattainable by foot, while some trees are 300 years old, with a height of over 50 metres. A true laboratory of nature! Your next point to rest and relax is a photo-stop at the viewpoint Dragoš Sedlo (1.242 metres high), where magnificent view reveals in front of you - the waterfall Skakavac

(grasshopper) whose water glides with full force through the steep 80-metre-high rocks. Ascend to the plateau Prijedor and discover some magical panoramic views of this park and nearby mountains: Maglič, Zelengora and Volujak. The peak Maglič (2.386 metres) is dominating among them as the highest peak in Bosnia & Herzegovina, situated right on the border with Montenegro.

From Prijedor, hike continues until you reach the last jewel of today's trip - Trnovačko Lake, meaning that trail crosses the Montenegrin border. The lake is located at a height of 1.517 metres and it's well known for its exceptional pure and clear water. What makes it so special and lovely is its unique shape of a heart! Trnovačko Lake is one of the seven glacial lakes that adorn Zelengora – one of the most beautiful mountains of the Dinaric Alps system. Due to their round shape, great depths and mesmerizing beauty, they are also known as 'mountain eyes'.

The adventure becomes complete only during well-deserved rest in the heart of the National Park and a picnic-lunch with homemade specialties, typical for this region.

Leisurely hike back for 1.5 hours, and move on with your trip to the rafting camp situated on the river Drina. At the end of this very dynamic day, you'll have plenty of time over dinner to reflect on your day and relive all the gorgeous impressions and memories from the great hike. Use this time to unwind and prepare for the next day rafting adventure. **Overnight: Rafting camp.**

Just getting there is a unique adventure: the stunning view of the Boka Bay will leave you in awe, while driving up the old, Austro-Hungarian 25-serpentine-road. First stop for the day is Njeguši, the village known as the birth place of the royal dynasty Petrović and a 'guardian' of the authentic architecture and cuisine in the region. Njeguški sir and pršut (cheese and prosciutto of Njeguši), a real treat for true foodies, are both genuine contributions to Montenegrin cuisine, produced only in this area, following the traditional recipe for smoking and curing meat.

Tasting the most famous specialties of the region makes us ready for one more breath-taking peak.
